WHIXALL SCHOOL NEWS

Roblox

Following a recent ITV investigation*, which found extremist content on Roblox, we thought we would provide a reminder of what you need to be aware of. Roblox is a platform consisting of a collection of games. Players can either create games or play games that other users have created. It is free to download (however subscription options and in game/app purchases are available) and can be played across numerous devices. **A lot of the content is user generated, which means not all games will be suitable for your child to view/play.** If your child is playing Roblox, it is important to monitor what your child is accessing and set up appropriate parental controls. **PEGI rate Roblox with a Parental Guidance label, this is because it is considered a platform with a huge level of user generated content.**

What should I be aware of?

Game content – as mentioned, users create games so the content/themes may not be appropriate for your child. Roblox label content based on the type of content rather than by age. The labels are Minimal, Mild, Moderate and Restricted.

Chat Facility - Players can chat with each other (users under the age of 13 need parent permission to access certain chat features though). You can turn communication off completely or add restrictions, such as only able to communicate with friends.

Virtual Currency - Players can buy Robux (their virtual currency) to buy in-game upgrades or accessories.

How do I report abuse and block users?

This article outlines the different reporting facilities:

<https://en.help.roblox.com/hc/en-us/articles/203312410-How-to-Report-Rule-Violations>

What else can I do?

Chat to your child regularly about what they are doing online and remind your child that if anything is worrying them, then they should talk to you or another trusted adult.

Discord

Discord is a social networking app originally designed for gamers but is now used by lots of different people to chat to each other online. The minimum age to access Discord is 13. The App store rates it as 17+.

Discord is made up of servers, which are spaces for groups to chat, upload files and share images etc. Anybody can set up a server, and they can either be public or private. Users can video call and send direct messages to other individuals or groups. Children who play online games such as Fortnite may use Discord to chat whilst playing the game (**rather than using the game's own chat facility**). In-app purchases are available through Discord's subscription service called Nitro.

How can I make it safer?

Discord have created a Family Centre, which provides further information about what Discord is, as well as information about different safety settings available:

<https://discord.com/safety-family-center>

As always, we would encourage you to chat to your child to see why they use Discord and ensure that they know how to block users and what to do if they see any inappropriate content. It is important to be aware that Discord does include video/voice calling which cannot be filtered. **Discord is used by an array of users and therefore adult content can be found on Discord as well as inappropriate language.** Discord have produced this article, which answers frequent questions:
